Summary

Physicist and Computer Science Engineer with hands-on experience in Python, SQL, automation and AI. Currently working as a full-time Data Engineer building automation bots, Power BI dashboards, and cloud data pipelines, while contributing part-time to an NLP/AI inference project. Pursuing a Master's in Applied Artificial Intelligence. Proven ability to streamline processes and deliver data-driven solutions across real-world enterprise environments. Fluent in English and Spanish.

Experience

Hitss (Global Hitss – Claro Ecuador)	Remote
Data Engineer	February 2026 – Present
Designed and deployed Python automation bots using selenium to extract reports from corporate platforms, processing and loading data into Power BI dashboards served to internal and external users. Built a Microsoft Teams notification system with adaptive cards for real-time pipeline monitoring. Designed Power BI dashboards, automated data refresh pipelines.	
MASVirtual - Datalab	Remote
Data Engineer	November 2024 - Present
Previous fulltime job, now part time job. Currently Contributing to a project focused on NLP and AI inference engine development. Integrating machine learning models (Zero-Shot classification with HuggingFace Transformers) for intent classification pipelines. Supporting Google Analytics 4 integration via Measurement Protocol and coordinating production deployment and technical documentation.	
Schlumberger (SLB)	Quito - Ecuador
Intern	January 2024 - June 2024
Developed a Python automation tool to streamline quarterly reporting and a mobile app with Power Apps integrated with Microsoft SQL, Excel, and SharePoint, improving efficiency, notifications, and document management.	
MASVirtual	Quito - Ecuador
Data Practitioner Jr	January 2022 - May 2022
Served as a Junior Data Practitioner, managing insurance data using SQL, Microsoft Azure, AWS, and Python. Focused on data analysis to support decision-making and project success.	

Education

UIDE	Master's in Applied Artificial Intelligence
Artificial Intelligence	Ecuador (Online) • June 2025 – Presente (In Progress)
https://www.uide.edu.ec	
USFQ	Bachelor of Engineering • 3.44 GPA
Computer Science	January 2022 - December 2024
https://www.usfq.edu.ec/es	
USFQ	Bachelor of Science • 3.3 GPA
Physics	August 2015 - December 2021
https://www.usfq.edu.ec/es	

Skills

Machine Learning Architectures (LSTM, CNN, Transformers)

NLP & Transformer Models (HuggingFace, Zero-Shot Classification)

Python Programming and Automation

Docker and Port Management

Terminal Proficiency (Linux, Mac, Windows)

SQL and Database Management

Power BI Dashboard Development and Design

Microsoft Power Automate and Power Apps for Process Automation

Microsoft Teams Adaptive Cards & Webhooks

Data Analysis and Visualization (MATLAB, Gnuplot)

Data Migration and Cloud-Based Systems (Azure)

Web Application Development (HTML, Laravel, PHP, CSS, Js, Java, C++, Heroku)

🔗 PyInstaller (Python App Packaging)

Google Analytics 4 (Measurement Protocol)

Languages

Spanish

Mother tongue

English

C1

German

A2

Interests

Volunteering
